This is an interior page. If you are seeing this page, you have downloaded *Secrets of Powerwriting for Internet Profits*, a sample E-Book from the online web site portfolio of Nancy A. Pickering, Pen and Brush Communications.

The E-Book cover—and its “landing page” on the web—are intended as a demonstration of design expertise only. The design (and HTML coding) elements are showcased, while the text is typical of the text I work with to put together a pleasing and effective promotion.

Why not put this demonstration of Pen and Brush Communications’ design expertise to work for you? Contact me at:
